

Assignment

 derekogle.com/NCMTH107/modules/CE/GetOrganized_CE1

For each question below, complete your answers as you expect to complete your assignments for the semester. For example, if you are going to type your assignments then do that here and save as a PDF for uploading to Gradescope. If you are going to hand-write your assignments then do that here and use your device to create a PDF for uploading to Gradescope. Directions for creating the PDFs and uploading to Gradescope were in the class preparation materials.

Goals

What are your goals for this introductory statistics course? You should list at least three and they should be written with complete sentences.

Calculation

Calculate the average of the five numbers below. Show all of your work.

13 18 22 7 8
